

## A Dream Underwater

So many people, I could have known  
So many people, we could've shared  
But I just sit here, unaware  
And my poor love could have been right there

How can I not be bothered  
By thought of what could have been  
It's like a night terror from within  
Oh and Jane Doe, you're my sweet sin

So many thoughts, under the night sun  
So many times, I could have loved  
But days just seem to fade away  
And my poor soul will just decay

How can I not be bothered  
By thought of what could have been  
It's like a night terror from within  
Oh and Jane Doe, you're my sweet sin

When the water is getting higher  
And your chest begins to push in  
No don't freak, no don't panic  
A dream underwater can be beautiful can't it?

## Untitled #2

Hold me  
Hold me down  
And I can't wait to see  
All your dreams, all your dreams  
Flourish before me  
Before me  
Before me

You are to me what the stars are to the night sky  
Oh honey we'll take our time  
Take it slow, don't you know  
Don't you know, it is and always was you

And can't you see  
If I could, I'd give you everything you need  
Oh honey  
Oh honey

## Lion Tamer

Could've thought I've seen you  
On the movie screens is where you belong to  
Over and over, we try and we try  
Oh honey do you have the time?

When your sadness  
Seems to fade  
Skip from a sunny day  
To a screaming hail

What's it to you?  
Sunlight gleaming on a gloomy day  
Seen the thrillers, baby  
When's he gonna grab her?  
The stars align in your favor  
And I'm the chair  
And you're the lion tamer and I'm the chair  
And you're the lion tamer

All the sign they read  
Things so obscene  
Thing you couldn't even dream  
But when it's all over  
When it's said and done  
Will you be the only one?

When your sadness  
Seems to fade  
Skip from a sunny day  
To a screaming hail

What's it to you?  
Sunlight gleaming on a gloomy day  
Seen the thrillers, baby  
When's he gonna grab her? And I'm the chair  
And you're the lion tamer and I'm the chair  
And you're the lion tamer

## Old Days

Sometimes I hate to see who I've  
become  
So many I've hurt, so many I've  
lost  
And I'd like to invite you to a  
coffee or tea  
A formal apology for my humanity  
And I wish I was half the man  
that you were  
And it's that time of year  
Cause I don't know what I'm worth

And who are we  
Just people, you and me  
Take what we have  
Cause somebody's up there and  
he's definitely got a plan

Seek a fate, between two hands  
Hold the heart, never understand  
When the earth crumbles  
And the floors beneath you fall  
I was the one who was there  
through it all

And who are we  
Just people, you and me  
Take what we have  
Cause somebody's up there and  
he's definitely got a plan

## Remedy

As long as the birds still sing  
and the trees still sway  
I'll do what you need to take you  
away  
Cause you are the remedy to the  
evil inside of me  
And without your presence my  
walls won't stand so  
Stay beside me, be my right hand  
Together we'll do all that we can  
cause we're  
Stuck in the moment

And hold onto it  
And hold onto it

And we've loved  
Fought and lost  
No matter the cost  
It's important to us

And we've loved  
Fought and lost  
No matter the cost  
It's important to us

Take these things and hold them  
high  
Above all else, you love or die  
So sit as you are, self-loathe  
and remorse  
Take time to yourself never try  
to force  
The things that may seem untrue  
to you  
Only do what's best for you  
Cause we're stuck in the moment

And hold onto it  
And hold onto it

And we've loved  
Fought and lost  
No matter the cost  
It's important to us  
And we've loved  
Fought and lost  
No matter the cost  
It's important to us

## Tempting Fate

Forty feet, cold wind weeps  
Gasps for heat, lack of sleep  
Do you ever wonder what it feels  
Like to float away

And I dream over and over and  
over and over  
And I dream over and over and  
over and over

And we're Tempting Fate  
So close don't speak  
Seal the streets  
And watch the queen streak

Whenever you see a cloud in the  
Shape of my own eyes  
Will you be alone with me  
Together in each in other's  
company?

And I dream over and over and  
over

And I dream over and over and  
over and over

And we're tempting fate  
So close don't speak  
(So close don't speak)  
Seal the streets  
(Seal the streets)  
And watch the queen streak

And we're tempting fate  
So close don't speak  
(So close don't speak)  
Seal the streets  
(Seal the streets)  
And watch the queen streak

Oh and please show me the  
Endless light of your city  
streets  
And hold your breath and watch  
with me  
Let the city see our harmony

And we're tempting fate  
So close don't speak  
(So close don't speak)  
Seal the streets  
(Seal the streets)  
And watch the queen streak

## **Gasoline**

Summer days  
They fade away  
No more than a memory  
And how they got to the best of  
me  
And how they got to the best of  
me

And why, why, why, is there no  
gasoline?  
And why, why, why, is there no  
gasoline?

These feet barely stop moving  
These balloons, filled with air,  
in my chest  
They feel like they're failing  
Some time to stop  
Some time to soak it in  
And it feels, and it feels, it  
feels like  
It isn't happening

And why, why, why, is there no  
gasoline?
